

December 8, 2021

Dear Student,

As previously communicated, the COVID-19 vaccination mandate with testing protocol goes into effect on January 31, 2022 for all Coast Community College campuses including the Waterfront Campus. Coast Community College District has selected a health and safety platform [Cleared4](#) to manage the mandate.

How to Access Cleared4?

If you are registered for a class scheduled to meet between Feb 1 and June 30, 2022, you will receive an email from no-reply@cleared4work.com to the email you provided at the time of registration, within the next week. **Please do not delete this email.**

The email will contain a private link that is your personal, secure link to the Cleared4 system. The link never changes so you can save it to your phone home page and launch it like an app or bookmark it to your computer. For detailed, step by step information on what to do once you receive this email, please see the attached instructions.

What to Do by January 24, 2022?

Using the personal link in the email from no-reply@cleared4work.com

- upload your vaccination documentation, or
- submit a request for exemption from vaccination

What Will Happen After January 24, 2022?

If you submitted a request for exemption from vaccination or did not upload your vaccination documentation, using the personal link in the email from no-reply@cleared4work.com, you will be able to:

- schedule COVID-19 testing
- upload test results if testing was done outside the District provided testing

Testing will be provided at all District college campuses (Coastline College, Golden West College, and Orange Coast College) starting on January 31, 2022, on an appointment basis. [Vaccination](#) is also provided at each College.

It is important that before January 24, 2022 you upload your vaccination documentation or ask for an exemption from vaccination following the steps described in the attached document. All students registered for a class at the Waterfront Campus in 2022 will need to be either vaccinated or follow a weekly testing protocol and have a negative COVID-19 test result from the last seven days in Cleared4 in order to be able to attend class or receive in person services.

In January, we will email instructions to the students who did not upload vaccination documentation on how to schedule COVID-19 testing at one of the District locations through the Cleared4 platform.

If you have questions, please visit <https://occsailing.augusoft.net//info/landing/covid-19-updates>, or email to **Orange Coast College Students** - studentmandate@occ.cccd.edu.

Thank you

Coast Community College District
